

# World in danger

By Frankie Morland

Have you played 'World in Danger' for your class yet?

It has a powerful message that we know the children will love.

[www.tpet.co.uk/world-in-danger](http://www.tpet.co.uk/world-in-danger)

Teacher's Pet have very proudly been invited to create a wealth of resources to support this amazing project.

These resources can be downloaded to use alongside the song, video and book. We hope they will help you to teach your class about important topics such as deforestation, plastic pollution, endangered animals, their habitats and climate change.

Let's all enjoy the world today!

Save paper and ink by not printing this page.

# Woodland habitat - cut outs
